I am a full stack developer, looking for new opportunities. Experience in multiple industries technology, healthcare and financial services. Graduate of University of Arizona's Coding Bootcamp and current student at University of Phoenix pursuing a degree in Information Technology. Proficient in front-end technologies HTML, CSS, JavaScript and React. Skilled in back-end technologies Node, SQL and NoSQL. Strong foundational knowledge of object-oriented programming with project-based experience in languages such as JavaScript, Java, C# and Python.

During my time at University of Arizona's Coding Bootcamp. I have had the opportunity to work on over 35 projects ranging from simple front-end web design to full stack applications. I am a strong independent worker and a key team member during group projects. My goal is to leverage my skills and training to improve the user experience and company profitability.

PROFESSIONAL

2014 – PRESENT

MORTGAGE UNDERWRITER, WELLS FARGO

I have held multiple positions at Wells Fargo including Personal Bank, Premier Banker, Mortgage Closer and Mortgage Underwriter. I am currently a mortgage underwriter, my day-to-day revolving's around risk analysis and writing logic for conforming and non-confirming mortgage loans. Currently a top performer from a production and risk management standpoint.

2012 – 2014

SALES CONSULTANT, ALERE

Alere provides solutions for chronic medical conditions. Medical device sales helping patients improve quality of life. Consistently a top performer with stellar risk management.

2008 – 2012

CO-FOUNDER AND CONSULTANT, JETS CONSULTING

Technology consulting firm working on contracts with small business and large corporations. Most notably American Express building payment processing solutions. My role as the Co-Founder and Consultant ranged from simple database management to business development and accounting.

ACADEMIC

2020 - 2021

CERTIFICATE – CODING BOOTCAMP, UNIVERSITY OF ARIZONA

Built over 35 applications in 6 months ranging from simple front-end design to full stack web applications. The bootcamp provided me the skills to become a full stack developer. Worked on individual and team projects graduating with an overall grade of 97.3%.

2019 - PRESENT

INFORMATION TECHNOLOGY, UNIVERSITY OF PHOENIX

Currently enrolled at University of Phoenix with a focus in information technology. Current GPA of 3.8 with an expected graduation date of August 2021.

SKILLS
